

EASL statement on COVID-19 and travel to London

14 February 2020

The International Liver Congress[™] (ILC) taking place in London 15-19 April, promises to gather the best and latest in liver research. EASL is working closely with its partners and liver disease experts from Europe and beyond to make this the hepatology event of the year.

We understand the concerns around the evolving COVID-19 (coronavirus) situation and EASL is monitoring the situation closely and taking advice from authorities such as the WHO, ECDC and local health authorities.

The well-being of our delegates and stakeholders is of utmost importance to us and we will make every effort to protect the health and safety of people at ILC 2020.

[Tips for healthy and responsible attendance at EASL events](#)

We look forward to seeing you in London.
