Travelling by taxi

When possible, public transports should be preferred to travel around London and to/from Airports as this is the quickest and cheapest way to travel.

Black taxis (or Black cabs as they are also known) are metered, therefore fares depend on the distance covered (km/miles). Indicative taxi fares and information can be found [here](#).

Minicabs can be pre-booked in advance and can be a cheaper option compared to Black taxis, however they will still be more expensive than public transports.

Note: Be sure to book with a licensed minicab with a Transport for London license disc: unbooked minicabs are illegal, unsafe and uninsured. A list of authorized minicab companies can be found [here](#)
More information on taxis and minicabs can be found [here](#).
